Dear Mr. Stroud:

I am the new Wood Stove Coordinator for the Department of Ecology. Mike Landon asked me to write you about certification of your wood fired masonry heaters. Mike is no longer involved with Ecology's wood stove program. He did evaluate the test procedures for the certification of your heaters, however. He determined that the procedures are appropriate under Ecology rules. Units built to the equivalent design of the tested unit can be sold as Washington certified.

Please call me at 459-6231 if you have any further questions.

Sincerely,

A handwritten signature in cursive script that reads "Fred Greef".
