

RADIANT MASONRY HEATERS

Price List

July 2008

CLASSIC SERIES

The Classic Series provides the core materials for a 2'8" deep x 6'8" wide finished masonry heater (2'8"x 5'8" without side masonry chimney) capable of heating well insulated home spaces of 2000 to 3000 sq. ft. The cast modular core blocks are numbered and lock together for easy and rapid assembly. The **Envirotech Site Preparation Manual** is available to help answer questions and plan your installation. Shipping prices quoted at order.

1001 Envirotech "Classic" Radiant Masonry Heater **\$7445**

Kit includes cast core block modules, arched cast iron and ceramic-glass loading door, five cast iron cleanout doors, steel damper with stainless steel sleeves, refractory clay mortar mix, insulation board, chimney connector piece, cardboard heat spacer material and construction and owners manuals. Specify left or right chimney. Total shipping weight approximately 4400 lbs. on two pallets.

1002 Envirotech "Classic" with See-Through Firebox **\$8525**

Includes the "Classic" kit materials with a second loading door and the modules to make arched openings on both sides of the unit.

1003 Envirotech "Classic" with Bake Oven **\$8525**

Includes the "Classic" kit materials with oven components, steel bake oven door, and core modules to add a "white" (non-firing) bake oven. Specify front or rear oven opening.

1004 Envirotech "Classic" with See-Through Firebox and Bake Oven **\$9505**

Includes the "Classic" kit materials plus the extra components for both the see-through firebox and the bake oven. Specify oven opening related to chimney.

COMPACT SERIES

The Compact Series was created to give the same quality **Envirotech Radiant Masonry Heater** experience for smaller space requirements. It provides the core components to build a 2'8" deep x 4'8" wide finished masonry heater (2'8"x 5'8" with side masonry chimney), and is recommended for heating home spaces up to 1800 sq. ft. Total shipping weight approximately 3725 lbs.

1048 Envirotech "Compact" \$6280

Kit includes cast core block modules, arched cast iron and ceramic-glass loading door, four cast iron cleanout doors, steel damper with stainless steel sleeves, refractory clay mortar mix, insulation board, chimney connector piece, cardboard heat spacer material and construction and owners manuals. Specify left or right chimney.

1049 Envirotech "Compact" with See-Through Firebox \$7360

Includes the "Compact" kit materials with a second loading door and the modules to make arched openings on both sides of the units.

1050 Envirotech "Compact" with Bake Oven \$7690

Includes the "Compact" kit materials with oven components, steel bake oven door, and modules to add a "white" (non-firing) bake oven. Specify oven opening front or rear.

1051 Envirotech "Compact" with See-Through Firebox and Bake Oven \$8775

Includes the "Compact" kit materials plus the extra components for both the see-through firebox and the bake oven. Specify oven opening in relation to chimney .

CUSTOM DESIGN OPTIONS

Ask for Quote

Both the Classic and the Compact series can be altered to meet different space requirements in height and chimney exits. The Compact can be built as well in a higher configuration with greater heating capacity which we call the "**Super Compact**". Not every model can be altered in every way and such alterations incur added manufacturing and design costs. Feel free to ask us about your unique situation!
